SUPPLEMENTAL QUESTIONNAIRE

EXPLAIN YOUR INTEREST IN THIS POSITION:

I have served on the Planning Commission since March 2021 and have enjoyed bringing my expertise in safety as a voice to the commission. As a long time resident in El Cajon, it is important to me to see our community grow in a healthy way.

I have had the opportunity to learn more about the planning and development process and provide constructive input for decisions on projects presented, as well as during the Housing Element and Zoning Code Updates.

I enjoy working as a team with the other commissioners while bringing my unique perspective to our conversations and decisions.

Have you been or are you now a member of a governmental board, commission or committee: Yes No

If Yes, please list:

Currently serving on El Cajon Planning Commission

Are you related to any employees of the City of El Cajon? Yes No

If Yes, please indicate name and relationship:

Are you a registered voter? Yes No

If No, please explain:

Please list your education, training, or special qualifications, which might be relevant to this position:

In 2015, I obtained my Doctorate degree in Nursing Practice. The focus of this degree was reviewing research and creating Evidenced Based Projects for the healthcare setting. I learned to identify a problem or need, determine who were the stakeholders, how to prepare a budget (even when there seemed to be no money) and create actionable steps to bring the project to fruition. My doctoral project was creating a pilot transition program. This pilot ran for two years and now we have now launched this program in the Cardiology this past October.

I spent 2019 designing a new Neurodevelopmental Clinic within Cardiology that launched in February 2020. Two weeks after it launched, CoVID shutdowns were placed and I was able to adapt this new clinic and the existing clinic I work in (NICU Neurodevelopmental Clinic) to a 100% telemedicine clinic. I was the 1st provider within the hospital I work with to do this and we were back to our regular volume of patients within the first month.

I realize this is not a hospital system and I am not providing patient care, but my academic training and experiences with projects has taught me how to evaluate a problem, provide a solution and be ready to be flexible when circumstances change.

I have also had almost 2 years of experience on the Planning Commission, learning about CEQA, zoning, ABC rules and regulations and how these different things affect building, development and businesses.

Please list your membership in service, community organizations or volunteer work that might be relevant to this position:

I am volunteering my services as a medic to my church as part of our Safety Team. We all work together to insure the safety and well being of those attending services or events.

Please describe any experience in public, civic, and charitable offices and/or any other activities that you believe will help you contribute while serving in this position:

Prior to joining the Planning Commission, I was involved with ECHTF, ACES Foundation and supporting organizations such as ECTLC, Salvation Army and our local school district. These activities demonstrates my commitment to making my community of El Cajon a better place.

Being on many hospital committees, including acting as chair and co-chair, and volunteering in many capacities with nursing organizations and local non-profits, I have had to work with people of varying backgrounds and points of view. This has taught me compromise and how to work toward a solution that works for everyone or at least the majority. Working with people from diverse backgrounds is an important skill for any working committee or commission. El Cajon has a culturally diverse population and it is important that planning for growth in our city takes that into account.

I love my El Cajon community and want to be a contributing member to improving the quality of life for those that live and work here.
