<i>Description: Thank you for submitting Appl-2024-9164 for the following scope of work:" New ADU 1200 SF New Garage 294 SF." Unfortunately, the plans cannot be accepted for full review at this time. Please see the following:</i>							
<ul style="list-style-type: none"> - The proposed northerly wall plane exceeds 30' in length without providing architectural relief or projection, and therefore does not comply with El Cajon Municipal Code (ECMC) section 17.140.170(F)(6). Please revise the wall plane accordingly. - The stairs along the southerly wall plane appear to encroach into the required side yard setback. Exceptions to projections into required yards are outlined in ECMC section 17.130.110; however, the proposed stairs do not appear to meet any of these exceptions. Please ensure that the stairs do not encroach into the required side yard setback. - The proposed elevations are required to incorporate a minimum of three of the design features outlined in ECMC section 17.140.170(F)(3). Please revise the north, east, and south elevations to comply with ECMC section 17.140.170(F)(3) and list the design features incorporated into each one for staff review. This comment may addressed in plan check, however staff are bringing this to your attention should you want to address it now along with the other comments. - Please ensure the scale provided for the elevations is accurate as this appears to be slightly off.
