<p><i>Description: Good Morning,</i> <i>Thank you for submitting the application for "NEW ADU, NEW GARAGE, AND STORAGE". Unfortunately, staff regret to inform you that the subject building permit application cannot be accepted for review at this time. The structure must generally comply with Chapter 17.140 requirements. Issues include, but may not be limited to the following:</i></p> <ol style="list-style-type: none"> <i>1. Pursuant to section 17.140.090 foot note 3, direct entry garages and carports shall maintain a 20 foot front yard setback. Please also be advised that section 12.16.030 limits driveways to "Not more than 40% of the property frontage" and section 17.140.160 limits paving to no more than 50% for the front setback area. There does not appear to be additional driveway area available.</i> <i>2. "The maximum size of an attached or detached accessory dwelling unit shall be not more than one thousand two hundred (1, 200) square feet of habitable space, but under no circumstances shall the attached or detached accessory dwelling unit be larger than the primary dwelling unit when including attached non-habitable spaces such as garages" per ECMC section 17.140.180(C)(2).</i> <i>3. "Attached covered patios, porches and similar covered areas intended to be used by the occupant of the accessory dwelling unit, except for a two -car garage or carport, shall be included in the maximum floor area of the proposed unit" per section 17.140.180(E)(2)(F). The proposed structure includes a garage which is larger than a standard two car garage, a storage unit, and stairways which create coverage. The structure therefore exceeds the 1,200 square foot allowance.</i> <i>4. The structure must comply with section 17.140.170 design requirements unless an Administrative Zoning Permit is approved pursuant to 17.140.180.</i> <ol style="list-style-type: none"> <i>a. Be advised that staff is unable to confirm required front transparency pursuant to section 17.140.170(F)(2). This may be a comment during full building permit review.</i> <i>b. All building elevations longer than 12 feet must provide adequate design features consistent with section 17.140.170(F)(3). The front elevation should clearly call out design features. Three materials would be required to qualify as material variation. The side and rear elevations are blank and require design features.</i> <i>c. A minimum 18 inch, 4 foot long relief or projection must be provided pursuant to 17.140.170(F)(6) for a wall to exceed 30 feet in length. The offset appears to be approximately 1 foot on side elevations.</i> <i>d. The garage shall not be located closer to the front setback line that the primary street facing façade of the primary dwelling unit pursuant to 17.140.170(G)(1).</i> <i>e. The garage shall not occupy more than 50% of the ground level width facing the primary street 17.140.170(G)(2).</i> <i>f. The garage shall not take the place of the main entryway 17.140.170(G)(3).</i> <p><i>Please feel free to reach out if you have any questions. Staff would be happy to conduct a brief review prior to finalizing any updated construction plans. Otherwise, please feel free to submit a new application with a corrected set of plans for screening once the clarifications and corrections are made.</i></p>

<p><i>Description: Good Morning, Thank you for submitting the application for "NEW ATTACHED ADU 2-STORIES 2 BED- 1.5 BATH 900 SF". Unfortunately, staff regret to inform you that the subject building permit application cannot be accepted for review as it does not comply with the ADU regulations in El Cajon Municipal Code section 17.140.180. Specifically, section 17.140.180(B)(2) states that a lot with multifamily dwelling units (a building containing two (2) or more dwelling units) is eligible for:</i></p> <p><i>1. At least one (1) unit and up to twenty-five percent 25%) of the existing number of multifamily dwelling units may be permitted within portions of an existing multifamily development in those areas that are not used as livable space including (but not limited to) storage rooms, basements, garages, attics, or other similar areas that may be converted.</i></p> <p><i>2. up to two (2) detached accessory units may be constructed, subject to four (4) foot side and rear setbacks and a height limit of sixteen (16) feet and three (3) foot side and rear setbacks and a height of twelve (12) feet.</i></p> <p><i>The plans propose an attached ADU which is not a permissible unit type according to this section. Consequently the application will be closed. You are welcome to reapply through elcajon.gov/paco if revised plans are prepared. I recommend however reviewing El Cajon Municipal Code chapter 17.140 carefully with particular regard for ADU and multi-family design requirements before reapplying.</i></p> <p><i>Please also feel free to reach out if you have any questions. Staff would be happy to conduct a brief review prior to proceeding with structural drawings.</i></p>
